Program

Foodscapes of Plenty and Want: Historical Perspectives on Food, Health and the Environment in Canada - Paysages d'abondance et de manque: Perspectives historiques sur la nourriture, la santé et l'environnement au Canada – is a scholarly workshop being held at the University of Guelph between June 23 and 25, 2013. The focus of the workshop is to bring together Canadian scholars working on research projects that examine the historical relationship between food history and the history of health, medicine and the environment. The goal is that papers from the workshop will be published in a special issue of the Canadian Bulletin of Medical History (CBMH) in 2014.

Registration is FREE. Please let us know if you'd like to attend by emailing foodscapes2013@gmail.com.

Foodscapes of Plenty and of Want: Historical Perspectives on Food, Health and the Environment in Canada
