

## NiCHE Digital Infrastructure (DI) Menu of Services

The NiCHE DI offers a variety of services to help disseminate projects online. **Fill out and submit this form with all NiCHE project proposals.**

**All NiCHE funded projects must have either an event homepage or a project page.** These will outline basic information about the project or event, its goals and its team members.

Please check off all **additional** DI services your project will seek to use. (The DI is unable to provide services not listed below. If you are requesting funding for web-based services that are not provided by the DI, please provide a justification for why you do not believe one of our existing options will meet your needs.)

---

**Your Name:**

**Your Project Title:**

**My project will seek to use the following DI services (Check all that apply):**

### Events

- A Presentation Archive on the NiCHE website
- An Audio Recorder to record presentations
- An Online Event Registration on the NiCHE website

### All Other Projects

- A Dedicated Blog on the NiCHE website
  - A space on our server to host a Simple Website
-
